Erotic E-book

A collection of short erotic stories:

The Instrument- A sensual story about how to make the ultimate music. It wasn't half bad for a few pages.

Head Of The Class- This was a story about "higher learning" and being the teacher's pet. In the beginning it was a little disappointing because it was mostly narrative but then it got down to business. Definitely worth the wait.

Puywhipped-** A man seeks out a therapist to help him deal with commitment. It actually had good characterization and plot for something so short.

Coming In My Back Door- A couple exploring their full sexual potential. Although it had a good plot, there wasn't enough dialogue to spice it up. It still was a good read.

Lipstick- Two female friends take their relationship to the next level, then soon regret it. Good plot and delicious on the senses.

Footsie- A woman finds comfort in her lover's memories. The story really tickled the senses. Very sensual read.

The Spatula- A married couple keep the spice in their relationship in a little give and take in the kitchen. This one was a scorcher! It would have been stronger with dialogue rather than all narrative, but it still was a great read.

The September 11th Story- Two friends with "benefits" must witness tragedy to realize what they mean to each other. The short has sweet and spicy and everything nice. There was not enough showing and too much telling-still a good read.

A Natural Progression 86- A woman who realizes things get better with age decides to let go of all inhibitions and things go awry. This was a sensual, funny read. Truly enjoyable.

Right On Schedule- A man lives out an erotic fantasy every Friday, right on schedule.

Overall review: I was pleasantly surprised by how great the stories were for such short pieces-very well-written. They had a bit too much narrative and not enough dialogue for my tastes, which can make it hard for the reader to get involved in the stories. Still, Ms. Caesar is a tremendous talent that I can't wait to hear more from.
