As the daughter of one of Hollywood's celebrated leading men, Hannah knows the score in Tinsel Town. She's already heard every lie ever to be uttered by the male Hollywood elite, so she's immune to it. Or is she?

When her father, adored actor Leo Fairchild, dies, not only does her current wicked step-mother find a way to prevent Hannah from claiming her trust fund, she also steals Hannah's boyfriend! With no way to pay her bills, Hannah is forced to put her true passion, astronomy, on the back burner, and take a job as personal assistant to Louis Trollope. Louis is the town's number one screen heartthrob, an English bad boy with a reputation for womanizing—just like her father. All too familiar with his type, she plans to keep things professional, despite his charm. When she falls for his best friend, screenwriter Mick Bradshaw, Louis takes it as a personal challenge, and sets out to win Hannah's heart.

So begins a complicated web woven of lies and love. How will Hannah ever find the truth in the town of illusions?

*True Hollywood Lies* is an honest look at the absurdities of life in the film industry. Charming, funny, emotional, with true-to-Hollywood-life characters, this is a fast-paced, thoroughly entertaining read that I had a hard time putting down! The character's flaws only serve to make them more human, drawing the reader into the story. Ms. Brown writes with a fresh, unique voice, and I look forward to reading her next book, *Impossibly Tongue-Tied*, due to be released in 2007.
